ADVANCING THE ELECTRIFICATION
OF TRANSPORTATION

WELCOME

Welcome to the **EV Charging Summit & Expo** - North America's largest charging-centric event strictly focused on EV charging infrastructure. We connect industry leaders, government officials, municipalities, utility companies, residential and commercial decision-makers, and researchers from across the globe.

EV Charging Summit & Expo offers unparalleled access to solutions for the challenges that current and emerging EV charging stakeholders face.

As the leading independent professional event focused on the education and development of specialized EV industry needs, the **EV Charging Summit & Expo** offers pre-conference workshops, structured networking opportunities, educational panel discussions, case studies, and a robust expo floor providing a comprehensive attendee experience to stay ahead in a highly competitive and fragmented market.

EVCS & Expo brings together professionals leading the newest designs and advancements in charging tech and infrastructure for automotive, fleet, heavy equipment, and hybrid electric vehicles. The Expo provides a one-stop-shop trade show where attendees will meet and engage with companies offering today's most innovative solutions to charging infrastructure, site design, finance, power management, and more.

We look forward to seeing you at the "can't-miss" event for EV industry leaders on **March 25-27, 2025!**

Thank you,

Breanna Jacobs

CHARGING SUMMIT & EXPO®

IS THE YEAR'S **MOST IMPORTANT GATHERING!**

JOIN THE ELECTRIFICATION REVOLUTION!

EV Charging Summit and Expo is the only event that empowers industry professionals to:

Strategically navigate site-host selection, installation, management and operations for their EV charging stations

Leverage EV charging management software, data, and AI for optimized energy management and cost savings

Implement cost-effective plans for fleet electrification

Find and apply for the state and federal grants to get your EV charging projects off the ground

Effectively partner with utilities and vendors to streamline project deployments

Meet industry professionals across the EV charging infrastructure landscape

Understand developments in grid management, reliability and resiliency and how they impact EV investments

Find the software, hardware, turnkey solutions, and other essential service providers to help streamline your EV deployments

THE ONLY *ONE STOP SHOP* ON THE MARKET

AGENDA AT A GLANCE

TUESDAY, MARCH 25 • 2025

PRE-SUMMIT WORKSHOPS

PLEASE NOTE: Workshops on March 25th are NOT INCLUDED as part of a March 26-27 Summit & Expo Pass. **THEY MUST BE REGISTERED FOR SEPARATELY.**

8:00AM

PRE-SUMMIT WORKSHOP REGISTRATION OPENS

9:00AM - 11:00AM

WORKSHOP A

Foundations of EV Charging: Importance of Networked Chargers, Driving Reliability, and OCPI

WORKSHOP B

Understanding Electric Capacity & Calculating Your Charging Needs

WORKSHOP K

EV Politics: New Polling on the Political Fight Over EVs and How America Can Overcome it

EVPolitics.org

11:00AM - 1:00PM

WORKSHOP C
